

Private Training: Getting the Most For Your Specialized Needs

Private Training is a good fit for many corporations. These specialized training options are:

- › Led by a SuccessFactors authorized instructor.
- › Include an agenda customized to fit your needs.
- › Can be delivered virtually or on-site.
- › Include hands-on practice and exercises created in your company's configuration set-up (with the exception of some of the technical reporting courses).

Private Training is charged in day-long increments plus travel expenses. Virtual training is available and would not include travel expenses.

Private Training Benefits You!

- › Research shows customers who buy private training receive better uptake and adoption.
- › Instructors dedicated to your organization answer questions specifically related to your system.
- › Teams report stronger engagement in training efforts.
- › Additional opportunities for your team to ask questions and get immediate answers is invaluable.

Does your administration audience have specialized needs?

Is your SuccessFactors software highly customized?

Each business has special considerations they want addressed. Private training is your answer.

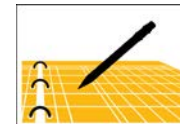

3 Easy Steps to Receiving SAP SuccessFactors Private Training

1

Email SFHCMGlobalTraining@sap.com to contact a member of our management team. From there, we contact you to scope your request.

2

Once scoped, you'll receive contract documents; a trainer will be assigned to your organization to discuss the agenda for the course and get to know your configuration.

3

Training is delivered! Move forward confident that SuccessFactors is behind you all the way.
