Table of Contents

Academy Training

Academy courses are intended for implementation consultants, implementation partners, and support representatives. These courses focus on the basic configurations necessary for assisting customers with their implementation of SuccessFactors products. Courses are taught through a combination of self-guided learning, check-in meetings, and hands-on exercises.

Attendees will gain the skills necessary to perform the core configuration for a SAP SuccessFactors product implementation project, and will become familiar with the resources and support available to configure the specific product for which the course is built.
