The Training Life Cycle & You

Success Academy currently offers three different types of training: **Project Team Orientation (or PTO)**, **Admin Training**, and **End User Training**.

› [Watch this video to learn more](#)

At
Kick-Off

As a major stakeholder responsible for implementing and maintaining SuccessFactors solutions, the **Project Team Orientation (PTO)** training focuses on core out-of-the-box functionality and prepares you to make the best decisions for a successful implementation.

› Get started with the right resources.
[View the Datasheet Reference Guide](#)

Before
Go-Live

The **Admin Training** courses are designed for the administrators responsible for your software systems. These courses cover key concepts, features, terminology, and practice of necessary skills before you go live.

At
Go-Live

Success Academy's end user training enables you to tailor an adoption program that drives acceptance, proficiency, and success of your new SuccessFactors systems.
